ISO 45001:2018

Yenilenen EN 1004 Standardıyla birlikte;

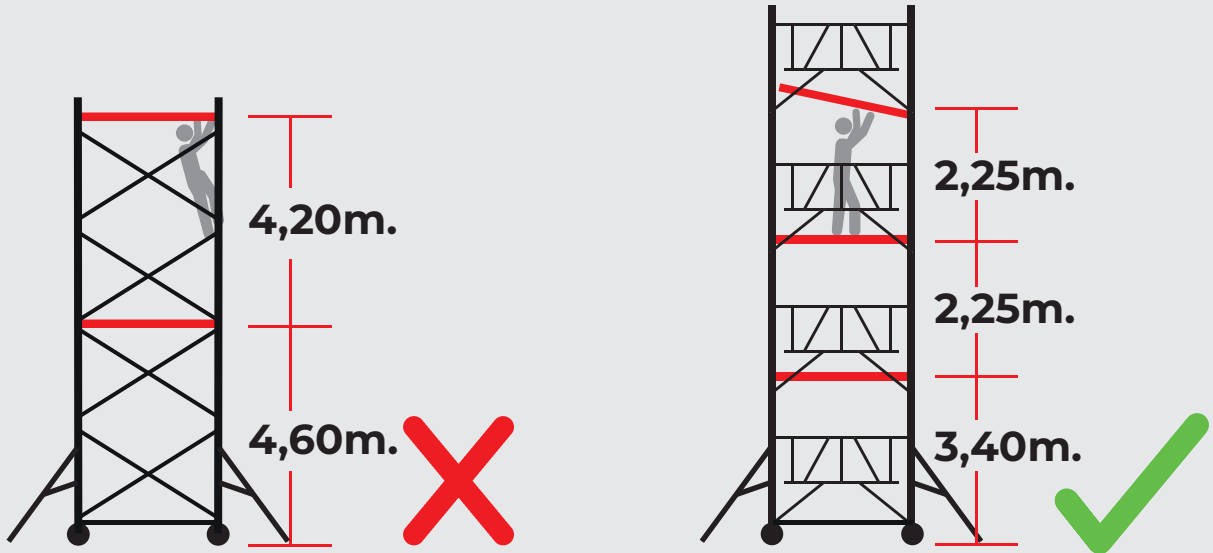

Güvenli ve Rahat kurulum

Yeni standart güvenlik bağlantılarını kolayca takılmasını sağlar, oldukça basit ve güvenli!

Platformlar arası yükseklik ve güvenli korkuluklar

Eski standartta iki platform arası yükseklik 4,60m.'ydi. Yeni standartta iki platform arası yükseklik 2,5m.'ye indirilerek platformların daha kolay yerleştirilmesi sağlanmış oldu.

2,5m. altı ürünlere ek güvenlik önlemleri

Yenilenen standart ürün yüksekliğine bakmaksızın ek güvenlik önlemlerini de beraberinde getiriyor. Bu sebeple 2,5m. altında kalan ürünler için **denge ayağı**, **güvenlik bağlantıları** ve **tekmelik** eklendi.
